

Precision Payroll of America has teamed up with Metropolitan Associates, LLC, a limited scope Professional Employee Organization (PEO), to provide savings on payroll services and savings on workers compensation costs by putting employees on the Metropolitan Associates, LLC workers compensation plan. **Savings of 10% or more on existing payroll processing and worker's comp costs are realized by most clients.**

Metropolitan Associates aggregates client companies on our Workers Compensation Policy which creates the savings. Currently we have over 20,000 employees from hundreds of companies in our program. By joining this program, clients no longer need individual policies. Instead they become part of a much larger pool of eligible workers, which allows costs to be reduced. Metropolitan Associates works with top rated carriers.

*"Thank you for the program.
It has improved our cash
flow and lowered our costs.
What a great payroll team."*
